--	--	---

**JJCPA PROGRAM:** Truancy Response Program (TRP) – *Continued*

**5. Program timeline:**

Fiscal school year / varies based on youth participation in programming.

**6. Metrics used to measure comprehensive plan success:**

<b>Pre- and post-program participation assessment:</b>
See attached pre- and post- program surveys used by the Boys & Girls Club of Garden Grove in Tier 2 (Truancy Mediation). Assesses social support, sense of purpose, self-esteem, coping skills, physical health, and healthy thinking.
<b>Improvement of protective factors</b> (i.e. factors that may mitigate or reduce problematic behavior):
Parent Empowerment classes and Teen Groups were provided to mitigate risk factors. Parenting classes focus on Love and Affection, Addressing Problematic Behaviors, Active Supervision, and Healthy Relationships. Teen Groups focus on Love and Affection, Healthy Relationships, Healthy Coping Skills, and Career Exploration & Budgeting. In addition, the goal at Truancy Mediation is to bridge the communication between families and their school districts.
<b>Amount and influence of any training that was provided</b> (i.e. measure expected outcomes of training to measurable returns):
<p>Cases in truancy mediation have seen improvement in parent and school communication. Parents have enrolled their children in after-school programs, sports, and other community programs. Families have improved their overall communication and relationships. Parents are spending quality time with their children and showing interest in what their children are doing. Moreover, students are communicating to parents about their Teen Group experience. Parents shared that their students enjoy the Career Exploration &amp; Budgeting class.</p> <p>Through case management, Truancy Mediation worked with parents to reduce financial barriers, connect with counseling, and address any additional needs. Through individual counseling, liaisons taught students how to create S.M.A.R.T. goals. Once students understood S.M.A.R.T. goals, liaisons helped students create treatment goals. This empowered students to take control of their goals and overall experience in Truancy Mediation.</p>

**NOTES:**

North SMART became operational in July 2020. The Covid-19 pandemic impacted schools and closed many for the entire 20-21 school year, ultimately resulting in a massive decline in calls for service and/or threat assessment. For the 21-22 school year, all Orange County schools returned to in-person, on campus learning. There has been a large increase in calls for services. This is likely attributed to students re-entering the in-person school environment, mental health issues from the pandemic, and re-socializing with administrators/peers after extended at-home learning.

<b>Pre- and post-program participation assessment:</b>
<b>Improvement of protective factors</b> (i.e. factors that may mitigate or reduce problematic behavior):
A full-time, dedicated HCA clinician has provided integral resources, specific to the student's needs and/or familial situation. This position can directly and positively impact a student in crisis and help them avoid further law enforcement intervention or interaction. This inclusion of the HCA clinician to OCSTAT helps the team view a youth and issues they may be experiencing from all perspectives. Positive intervention can often occur before a juvenile enters into the legal system.
<b>Amount and influence of any training that was provided</b> (i.e. measure expected outcomes of training to measurable returns):

464 School Administrative Staff members were trained in Comprehensive School Threat Assessment Guidelines (CSTAG) across Orange County. Those trained were from 44 High Schools, 44 Middle Schools, 1 Special Education School, and 10 Private Schools. 22 Administrative Staff members were trained as "Train the Trainers" (TTT).

**NOTES:**

The JJCPA completed its initial grant funding agreement for this project. 464 School Administrative Staff members were trained in the Comprehensive School Threat Assessment Guidelines (CSTAG) across Orange County. The schools and Orange County Department of Education found this so beneficial that they asked for the training to include staff for additional elementary schools countywide. We would also like to provide refresher CSTAG trainings to the high schools and middle schools as needed.
